5G / Wi-Fi
XR-80
Field Comm Kit

System Specifications:

-Solution Integrated Within A Pelican 1560 Case
- -Overall 22" Long x 18" Wide x 10.5" Tall - 33 lbs.
- -Retractable handle and wheels for easy toting
-Semtech AirLink XR80 5G Cellular Router
- -Download speeds up to 4.14 Gbps
- -Upload speeds up to 600 Mbps
- -Dual SIM slots
- -5 x 4 MU MIMO WI-FI 6
-Panorama Dome Antenna
- -5G / Wi-Fi / GPS
- -Wi-Fi effective out to 600' away
-Integrated Gigabit PoE Network Switch
- -30 watts per port
- -IEEE802.3af/at
-Internal 12 VDC 50-amp hour Life-PO4 rechargeable battery bank
- -Provides for up to 10 hours of operational runtime
-Internal 20-amp LiFe-PO4 battery charger
- -Charger can be enabled when external 120vac is present
-Internal Relay Power Bypass Module
- -Allows kit to operate off of:
  - -Internal Battery Power
  - -External 120 VAC power source
  - -External 12 VDC power source
-Internal Air Circulation System

Specifications Continued:

-Integrated Control Panel For System Operations
-External Panel Mounted Interface Panel
- -One (1) RJ45 WAN port
- -Three (3) RJ45 LAN PoE ports
- -One (1) 12 VDC power inlet port
  - -Includes 10' long detachable power cord
- -One (1) 120 VAC power inlet port
  - -Includes 10' long detachable power cord
